Description:
FairTea Ceylon is a unique Fairtrade tea grown on the hills of Nuwara Eliya. Scents of the abundant cypress, wild mint and eucalyptus give the tea its distinctive aroma.

For FairTea we have selected hand- picked teas from famous tea gardens in China and Sri-Lanka. By using whole tea leaves, the taste and aroma are preserved as much as possible. In combination with deliciously fragrant herbs and spices, natural aromas and pieces of dried fruit, FairTea develops into a deliciously full tea.
FairTea is packed in a large kraft bag with a special closure that guarantees freshness and taste. This way we save on unnecessary packaging material. The tea bags are made of biodegradable soilon. This way, we create a more natural balance and together we reduce the impact on the environment. All FairTea is Fairtrade certified and where possible also organic.
